

Dear Sirs: Please do not expand ownership rules for TV and radio (i.e. allow conglomerates to horizontally control more and more TV and radio stations). It has gone far enough. Choice is clearly being limited. Everything -music and news - sounds the same. And PLEASE NOTE: If the major network/media companies were being financially hamstrung by restrictions on outlet ownership as they claim, why would they have embarked on this misadventure to begin with? It was clearly in their economic interest to consolidate and PUBLIC ACCESS to information deserves better. Deny them the right to control OUR airwaves. Consolidation has cost local market JOBS and has affected the ability in some cases for local authorities to respond to LOCAL EMERGENCIES, as might be required in a terrorist attack. Thank you for your consideration.

YVT,
Luis Lemus III
